

Weekly Report

2018.04.09-2018.04.15

Done

- Practice the react framework such as redux, router
- Read the official document API of TensorFlow.js, revise the concepts of machine learning

Work plan

- Learn about Django(python), koa2(js), and etc. to master more tech in back-end development.
(2018.05.01)
- Since the tensorflow.js is just published, take some time to learn it and try to some projects with it.
(2018.05.10)
